

NOTICE REGARDING THE AVAILABILITY OF YOUR
NAME AND TELEPHONE NUMBER TO THE PARTIES YOU CALL

Barry County Telephone Company provides you this notification in accordance with Michigan Public Service Commission rules.

Barry County Telephone Company provides Caller ID service, which means that your name and telephone number is displayed to the called party. However, two complimentary features are available to either prevent your name and number from being displayed, or make your name and number available as desired.

You may temporarily restrict the availability of your name and number to the party called on a per-call basis. To activate this feature, just dial *67 on a touch tone phone, or 1167 on a rotary phone, before placing the call. Note that this is a “per-call” feature and will automatically terminate when the call is ended.

If you have made arrangements for your private telephone number to be automatically blocked to the called party, but wish to make your name and number public for one call, dial *82 on a touch tone phone, or 1182 on a rotary phone, prior to making the call. This is also a “per-call” feature and will automatically terminate when the call is ended.

Note that subscribers of automatic number identification or charge number service are prohibited from using the telephone number and billing information for any of the following activities:

- (i) The reuse or sale of the telephone number or billing information without the express, affirmative consent of the originating telephone subscriber.
- (ii) Disclosure of any information derived from an automatic number identification or charge number service, except for:
 - billings and collections;
 - routing, screening, completing, and providing services directly related to the originating telephone subscriber's call or transaction;
 - the originating telephone subscriber expressly, affirmatively consents;
 - to perform a service or transaction that is a subject of the originating telephone subscriber's call;
 - to ensure network performance security;
 - to ensure the effectiveness of call delivery;
 - to compile aggregate information for use and disclosure;
 - to comply with a law or legal process
